Our chamber of commerce should be rewhol. The strength of union should be at least available, when needed, for the advancement of Calco projects and for the protection of Cairo rights, etc.

Jimmy English opened the Court House saloun in gay style this morning, spreading a tunch good enough for a king. His well served viands, fine ale and pure old rye, were discus ed by a large crowd of callers-in. A ciever, courieous gentlemany young man is Jimmy. Every body likes him.

Shall we have a reliable, ever-passable Mc-Adamized road from Cairo to Unity! Such an improvement would increase the wealth of Alexander county \$1,000,000 in two years. Shall weabtain our embling met, issue \$1,00,-000 county bonds, and build the road? Into whose hands is this matter confided?

A negro child, about four years ola, attempted a crossing of Poplar street, yesterday evening, directly in front of a wagon -was knocked down, and picked up unhart from directly beneath one of the horses. The little black brat was not even scratched.

To insure harmony and exactness the judges and clerks of the primary election propose, we understand, to register names of votors, and to conduct the election generally with all the care and precision that distinguish our general elections.

Charley Pfifferling, the autocrat of cooks, presides over the culinary department of Walker and Sisson's restaurant; and is hourly serving up in his preminely tempting style, systems, game, and everything else the varied appetites of customers demand. Charley is a card for any restaurant. If he feeds a man once he secures a mortgage on that man's spetite that is never foreclosed.

A pitiful sight was the ragged, muddy, drunken woman that reeled along Fon.; eath street, about dusk yesterday avening. Low, debased, abandoned, lost! But once, perhaps, a family pride, respected, petted, praised. What depth of degradation cannot the abandoned woman reach?

Election excitement has visibly increased since yesterday morning. Candidates are on the alert, and all of them beaming, genial and clever. To what a disappointment will some of them wake, when the ballots are all sounted? Whew!

We repeat an acknowledgement of thanks J. H. A. Hannon, esq., and Musars W. B. Rockwell & Co. for frequent favors in the way of the latest newspapers.

Water! water!! Water!!! Great inducements! Bargains! bargains! The stock of clothing, furnishing goods, boots, shoes, &c., &c., which was saved by Sternheimer & Marx from the late are, will be sold at 50 per cent. less than cost, at their new place of business. No. 84 Ohio levee. Call soon and secure bargains, as the goods will be sold at a great sucrifice, by order of the underwriters.

A PAINE REPORT NAILED.

The report has gained currency that the Cairo Property Trustees will yield the use of the Mississippi levee to the Caire and Vincennes railroad company, only upon the payment to them of twenty-five thousand dollars. For this report there is not even the shadow of a foundation. On the contrary, the use of that levee has been tendered, without money or price, and depot grounds upon the same terms. These liberal tenders were made directly to Colonel Harper, the chief engineer of the road; and that no action was taken upon them is chargeable to the colonel's desire to first advise with General Burnside.

The feeling, somewhere, that would be gratified by a misunderstanding between the Cairo authorities and the officers of the C. and V. R. R. company, is doomed to disappointment. There is a disposition on our part to deal liberally with the railroad company, and to submit with a ready cheerfulness to all its reasonable demands. This is all the railroad company can ask of us, or will ask. Where, then, is there room for bickering or disagreement?

THE RIVER BOTTOM OUT.

A few weeks ago a colored man named Stevenson was drowned at our wharf, falling into the river on the outside of the wharfboat and never re-appearing upon the surface of the water. Yesterday, a colored man named Wesley fell from the steamer Bee, lying at the same point in the river, and like Stevenson, went down to rise no more. Two other persons having been drowned at the same place, during the past two or three years, a superstition has taken root in the minds of the negroes cognizant of the facts, that the river there is not only bottomless, but possessed of the devil. They urge that to pass beneath the surface of the water there is death, inevitable, as there is a downward suction that draws the body down, down, to measureless depths, despite the utmost efforts of the victim. The ignorant creatures, barboring this superstitious dread of the place, give it a wide berth, night or day.

AN ABUSIVE TRIO

Ben Johnson came across a fellow darkey whom he couldn't "abear," and to ease his repugnance, he shot off an offensive charge of talk at his fellow, which took effect immediately. Ben was brought before Shannessy, fined and calaboosed, in the shortest imaginable order.

THE BAKERS.

The concert by the celebrated Baker family, so long promised, will undoubtedly be given in the Atheneum this evening. There will be no postponement on account of unfavorable weather-there will be no call for it, for such is the high reputation of this family, and the keen relish of our people for first-class vocal music, the building will be thronged regardless of any ordinary adverse circumstances.

The Baker family consists of John C., Mrs. J. C., Jasper A. and George E. Baker, who are the identical persons who framed the ploneer Baker concert troupe, and are in as good voice now as at any period of their lives.

The programme, which has been submitted to the inspection of most of our readers, embraces many very choice gems-pathetic, sentimental and humorous; and is so varied as to bring the family to the foot-lights in quartettes, tries, soles and choruses, thus giving the audience a chance to enjoy the rare gifts of these wonderful "children of song" singly any collectively.

A NEW COUNTY ROAD.

A petition will be presented to the county court at its Murch term, from citizens of Unity and Santa Fe, praying for the location of a new road running through a portion of this county, as follows: Commencing at a point on what is known as the Roach heirs' farm, where the Santa Fe road intersects the Thebes and Caledonia road; from thence siong the east side of Swan Pond to intersect the Thebes and Cairo road at the upper end of what is known as the Jefferson Martin farm-distance about six miles. This road forms an outlet for the people in the settlements east of Santa Fe and west of Unity, to Cairo, over a comparatively direct line; and shortens the distance to Cairo at least five miles. It has hitherto been an absolute necessity for the residents of this neighborhood to take the Santa Fe road and go to Santa Fe, or take the Caledonia and Thebes road and go to Unity, before they could find a road to Cairo-a distance to either point of from two to five miles, and when there they were further from Cairo than when they started. The ground over which the road is to be located is said to be of a high, sandy nature, and will make a better road than those now in use. The county will be ut no expense in opening this road, as the supervisor of each road distriet is required to open and keep in repair all new roads within his respective district. To enable them to do this the law provides that every able-bodied man between the age of 21 and 50 years, is to labor in his district not less than two nor more than five days ev-

Mr. Timothy Coakley deserves the thanks of all who are intetested in this new thoroughfare, as he has from the start assumed the burden of the labor necessary to place it upon its present favorable footing.

COURT OF CORNESS PLEAS THIRD DAY.

John Hogan, eity marshal The court was engaged during the entire day yesterday in the disposition of parties indicted for larceny. The four young men, named Charles Develin, William Moore, Richard Burke and Thomas Crofton, were found guilty, under an indictment for grand larceny, but the sentence of the court was withheld. These young men, mere boys in fact, are the same who stole some twenty dollars from the pocket of Enoch Burress, one day last week, in a Commercial avenue bagnio. Young Crofton's parents live in Cairo, His old father, who for years has worked upon the streets of Cairo, is greatly distressed over his son's depravity, and would even now sacrifice everything he has in the world to save him from the penitentiary. His companions in crime are from Memphis.

The fate of James Moran, charged with larceny, was announced by us yesterday. Frederick Fried was found guilty of petit larceny and sentenced to three month's imprisonment in the county jail. William Rippy, indicted for larceny, was acquitted. Henry Cutler, being arraigned under an indictment for larceny, plead guilty. He will pay a penalty of one year's imprisonment in the penitentiary. At 5 o'clock the court adjourned until halfpast 8 o'clock this morning.

AT LAW FOR A PIG. The Reverend Jacob Bradley is "going up through great tribulation." Before 'squire Shannessy, yesterday evening, we heard him descanting upon the uncertainty of the white man, hurling thunderbolts of denunciation at the radical party, and particularly upon so much of it as was represented in the person of the individual with whom he was at the moment litigating. He expressed the belief that the "Campbell minstels" could pass through the infinitesmal perforation in the head of a "cambridge" needle easier than a white radical could deal "magnet-animalously" with a negro. "I bars no witness against nobody." persisted Jacob," but its my judgmatic opinion dat in de dominions of Satan de radical ticket allers gets elected; and if fool niggers had no vittles but radical love and sympathy they'd be too poor to throw a shadder." For some moments we apprehended that his sable reverence would get a patch of his wooly scalp knocked off, but to the last be maintained an otter recklessness of fists clinched to punch him, and of canes clutched to thwack him.

The exciting cause of all this, was the imagined inadequacy of the compensation tendered to him by a Mr. Petrie, for the care of a sow and pigs. Jacob claimed that he had watched over them with tender solicitude and encouraged by frequent potations of slop, the growth of the young porkers, and should be rewarded by a present of three of these young grunters. Petrie would give but two. Jacob insisted on three-and so, on account of one small pig, a law suit is instituted that will cost twenty dollars anyhow.

About 8 o'clock last night two young villains fell in with a German who was waiting for a steamboat. They became quite familiar, and finally volunteered to escort the German to a boarding house. Near the corner of 3rd and Washington Avenue they garroted their victim, secured his pocket book containing eleven dollars, and made their escace. The German was left penniless.

An individual named Curran, under-estimating the strength of Cairo whiskey, took deep potations and fell. Before squire Bross, this morning he "acknowledged the corn" and was mulcted in the sum of \$2 and costs, which
